Re: Notice of File Closure, Trout Creek Project, S/023/045 (UTU-072863), Juab County, Utah

Dear Messrs. Foster and Holloway:

We have received notification from the BLM that a site inspection of your Trout Creek small mining operation, located in Section 28, T12S, R18W, Juab County, Utah was performed December 19, 1996. The BLM determined that there was no surface disturbance related to your operation and subsequently closed out their case file for this project.

The Division performed an inspection in July 1996, and also found no mining related impacts to the site. Based upon the Division's and the BLM's inspections, we will accept the BLM's recommendation to close out the file for this project. If you wish to conduct any activity in this area, a new notice of intention will have to be filed and accepted by this Division prior to any disturbance taking place.

If you have any questions or concerns regarding this letter, please contact me.

Sincerely,

Tom Munson  
Senior Reclamation Specialist
